## How Tobacco Smoke Causes Disease - 2010

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of

associations observed in epidemiologic studies.

Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking

causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

### **Pan-Africanism, and the Politics of African Citizenship and Identity -**

Toyin Falola 2013-10-08

There is no recent literature that underscores the transition from Pan-Africanism to Diaspora discourse. This book examines the gradual shift and four major transformations in the study of Pan-Africanism. It offers an "academic post-mortem" that seeks to gauge the extent to which Pan-Africanism overlaps with the study of the African Diaspora and reverse migrations; how Diaspora studies has penetrated various disciplines while Pan-Africanism is located on the periphery of the field. The book argues that the gradual shift from Pan-African

discourses has created a new pathway for engaging Pan-African ideology from academic and social perspectives. Also, the book raises questions about the recent political waves that have swept across North Africa and their implications to the study of twenty-first century Pan-African solidarity on the African continent. The ways in which African institutions are attracting and mobilizing returnees and Pan-Africanists with incentives as dual-citizenship for diasporans to support reforms in Africa offers a new alternative approach for exploring Pan-African ideology in the twenty-first century.

Returnees are also using these incentives to gain economic and cultural advantage. The book will appeal to policy makers, government institutions, research libraries, undergraduate and graduate students, and scholars from many different disciplines.

**Equitable Education for Marginalized Youth in Latin**

## **America and the Caribbean -**

Stacey N. J. Blackman

2022-09-02

This edited volume examines the thrust towards equity in education for marginalized and out-of-school youth, as well as youth with disabilities, in countries located in the Global South. Using a critical cross-cultural lens to interrogate the historical, empirical, and theoretical discourses associated with achieving UNESCO's equity in education agenda, the book showcases the work of scholars from developed and developing nations in examining inclusive education. Drawing attention to the nature, impact, and effects of marginalization, the book ultimately demonstrates the ability of education systems in the Global South to be innovative and agile despite current resource challenges. This text will benefit scholars, academics, and students in the fields of international and comparative education, education policy, and inclusion and special educational needs education more broadly. Those

**Teaching Caribbean Poetry** - Beverley Bryan 2013-10-30

Teaching Caribbean Poetry will inform and inspire readers with a love for, and understanding of, the dynamic world of Caribbean poetry. This unique volume sets out to enable secondary English teachers and their students to engage with a wide range of poetry, past and present; to understand how histories of the Caribbean underpin the poetry and relate to its interpretation; and to explore how Caribbean poetry connects with environmental issues. Written by literary experts with extensive classroom experience, this lively and accessible book is immersed in classroom practice, and examines: • popular aspects of Caribbean poetry, such as performance poetry; • different forms of Caribbean language; • the relationship between music and poetry; • new voices, as

well as well-known and distinguished poets, including John Agard (winner of the Queen's Medal for Poetry, 2012), Kamau Brathwaite, Lorna Goodison, Olive Senior and Derek Walcott; • the crucial themes within Caribbean poetry such as inequality, injustice, racism, 'othering', hybridity, diaspora and migration; • the place of Caribbean poetry on the GCSE/CSEC and CAPE syllabi, covering appropriate themes, poetic forms and poets for exam purposes. Throughout this absorbing book, the authors aim to combat the widespread 'fear' of teaching poetry, enabling teachers to teach it with confidence and enthusiasm and helping students to experience the rewards of listening to, reading, interpreting, performing and writing Caribbean poetry.

*Children in the Global Sex Trade* - Julia O'Connell Davidson 2005-01

This compelling new book explores the complexities of the global child sex industry, but without falling into cliché and melodrama. Julia O'Connell Davidson draws attention to the multitude of ways in which children become implicated in the sex trade, and the devastating global political and economic inequalities that underpin their involvement. She sensitively unpicks the relationship between different aspects of the sexual exploitation of children,

including trafficking, prostitution and pornography, at the same time challenging popular conceptions of childhood and sexuality. This thought-provoking book will be of interest to general readers, and to students taking a range of courses, such as gender studies and childhood studies, and courses on sexuality and globalisation.

Demonic Possession and Lived Religion in Later Medieval Europe - Sari Katajala-Peltomaa 2020-02-19

Demonic possession was a spiritual state that often had physical symptoms; however, in *Demonic Possession and Lived Religion in Later Medieval Europe*, Sari Katajala-Peltomaa argues that demonic possession was a social phenomenon which should be understood with regard to the community and culture. She focuses on significant case studies from canonization processes (c. 1240-1450) which show how

each set of sources formed its own specific context, in which demonic presence derived from different motivations, reasonings, and methods of categorization. The chosen perspective is that of lived religion, which is both a thematic approach and a methodology: a focus on rituals, symbols, and gestures, as well as sensitivity to nuances and careful contextualizing of the cases are constitutive elements of the argumentation. The analysis contests the hierarchy between the 'learned' and the 'popular' within religion, as well as the existence of a strict polarity between individual and collective religious participation. Demonic presence disclosed negotiations over authority and agency; it shows how the personal affected the communal, and vice versa, and how they were eventually transformed into discourses and institutions of the Church; that is, definitions of the miraculous and the diabolical. Geographically, the volume

covers Western Europe, comparing Northern and Southern material and customs. The structure follows the logic of the phenomenon, beginning with the background reasons offered as a cause of demonic possession, continuing with communities' responses and emotions, including construction of sacred caregiving methods. Finally, the ways in which demonic presence contributed to wider societal debates in the fields of politics and spirituality are discussed. Alterity and inversion of identity, gender, and various forms of corporeality and the interplay between the sacred and diabolical are themes that run all through the volume.

*Marketing the Arts* - Daragh O'Reilly 2010-04-27

In recent years, there have been significant shifts in arts marketing, both as a practice and an academic discipline. The relationship between art and the market is increasingly complex and dynamic, requiring a transformation in the way the arts are marketed.

Marketing the Arts argues that arts marketing is not about the simple application of mainstream managerial marketing to the arts. With contributions from international scholars of marketing and consumer studies, this book engages directly with a range of contemporary themes, including: The importance of arts consumption and its social dimensions The importance of the aesthetic experience itself, and how to research it Arts policy development The art versus commerce debate The role of the arts marketer as market-maker The artist as brand or entrepreneur This exciting new book covers topics as diverse as Damien Hirst's 'For the Love of God', Liverpool's brand makeover, Manga scanlation, Gob Squad, Surrealism, Bluegrass music, Miles Davis and Andy Warhol, and is sure to enthuse students and enlighten practitioners.

your intimate and casual friends. Google knows what you're thinking because it saves your private searches. Facebook can determine your sexual orientation without you ever mentioning it. The powers that surveil us do more than simply store this information. Corporations use surveillance to manipulate not only the news articles and advertisements we each see, but also the prices we're offered. Governments use surveillance to discriminate, censor, chill free speech, and put people in danger worldwide. And both sides share this information with each other or, even worse, lose it to cybercriminals in huge data breaches. Much of this is voluntary: we cooperate with corporate surveillance because

it promises us convenience, and we submit to government surveillance because it promises us protection. The result is a mass surveillance society of our own making. But have we given up more than we've gained? In *Data and Goliath*, security expert Bruce Schneier offers another path, one that values both security and privacy. He brings his bestseller up-to-date with a new preface covering the latest developments, and then shows us exactly what we can do to reform government surveillance programs, shake up surveillance-based business models, and protect our individual privacy. You'll never look at your phone, your computer, your credit cards, or even your car in the same way again.
