Kou Nanami propose de la découvrir dans ce livre et explique, en schémas et

mesh and bead chokers that look like filigree, daisy chain necklaces, metallic yarns crocheted into arm cuffs, and pom pom brooches. The range is extraordinary (rings, hair barrettes, chokers, necklaces, earrings, bracelets, arm cuffs, bangles, brooches), the designs delightful and engaging. In addition to the 35 projects, there is an introductory section that covers, in step-by-step, photographically illustrated detail, all the crochet and jewelry-making techniques you need to know to complete these projects.

**Embroidery of the Greek Islands** Roderick Taylor 1998-09 This lavishly illustrated volume is the most complete study of Greek island embroidery yet published. Each group of islands developed quite different styles and repertoires of designs

using linen, cotton, and silk. Varying populations – urban foreigners and rural natives, Catholic towns and Orthodox villages, invading navies and armies – all contributed to a fusion of styles and motifs that led to one of the greatest displays of decorative folk art to be found anywhere in the world. The styles range from aristocratic and patrician designs from Rhodes, the monochrome geometric work of Naxos, to the exuberant narrative style of Skyros and the Ottoman-influenced work of Epirus.

used for? These are the types of questions that this practical guide sets out to answer. Lavishly illustrated, it shows you how to identify the sort of lace that you might find hiding away in drawers and cupboards, or buy at a vintage textile fair. It deals predominantly with the hand-made and machine laces of the nineteenth and twentieth centuries. Topics covered include: an introductory survey of the different types of lace, their history and construction; guidelines for a systematic approach to lace identification and advice on cleaning and storage; chapters on the different types of lace: bobbin lace, needlelace, craft laces such as crochet and tatting, machine lace and lace based on tapes and nets. There are exercises on distinguishing similar

pieces of lace made using different techniques and there are illustrations of how lace has been used and of some of the tools used in the making. Written by experienced lacemakers, Gilian Dye and Jean Leader, it presents items from their own collections to illuminate and inspire others who wish to know more about this fascinating textile. Lace Identification is a complete guide to the beauty of this stitch craft, and will richly reward all those who study the treasures they may own.

Exploring religious expression in two villages, this book considers rural spiritual practices and describes a living, evolving Sunni Islam, influenced and transformed by local and national sources of religious orthodoxy. Drawing on a decade of research, Kimberly Hart shows how religion is not an abstract set of principles, but a complex set of practices. Sunni Islam structures individual lives through rituals—birth, circumcision, marriage, military service, death—and the expression of these traditions varies between villages. Hart delves into the question of why some choose to keep alive the past, while others want to face a future unburdened by local cultural practices. Her answer speaks to global

transformations in Islam, to the push and pull between those who maintain a link to the past, even when these practices challenge orthodoxy, and those who want a purified global religion.
