**Careerview** - Bill Bliss 2018-03-16

CareerView is designed to help high-intermediate and advanced English language learners explore their work interests and job opportunities across many employment sectors while they develop career and academic readiness skills to achieve their short-term and long-term goals. Together with its separately published companion Career & Academic Readiness Workbook, the text helps prepare students for a successful transition to continuing education, vocational training, and employment. The course can serve as the capstone level of a traditional basal English series, as a stand-alone or supplemental text for advanced, transition, and bridge classes, and as an introductory career exploration resource for students entering continuing education, occupational training settings, and high school career and technical education programs. School employment counselors, career navigators, and other guidance professionals can also use the text with student advisees to help them explore career pathways. Outstanding Features An integrated curriculum promotes employability and academic readiness goals of the English Language Proficiency Standards (ELPS) and Workforce Employment and Opportunity Act (WIOA). Vibrant illustrations depict an array of occupations and workplace settings. An active conversational approach gives students "soft-skills" practice with functional contextualized workplace communication. Critical thinking and personalization questions promote discussions about workplace values and expectations, problem-solving, and personal experiences. Skills Checks provide built-in review practice in each unit. Tech Tasks develop students' digital information skills. The workbook focuses on employment sector information, career and academic readiness skills, and civics connections. A complete audio program and answer key allow students to study independently at their own pace.

*Creating Sustainable Careers in Student Affairs* - Margaret W. Sallee 2020-12-28

This book argues that the current structure of student affairs work is not sustainable, as it depends on the notion that employees are available to work non-stop without any outside responsibilities, that is, the Ideal

Worker Norm. The field places inordinate burdens on staff to respond to the needs of students, often at the expense of their own families and well-being. Student affairs professionals can meet the needs of their students without being overworked. The problem, however, is that ideal worker norms pervade higher education and student affairs work, thus providing little incentive for institutions to change. The authors in this book use ideal worker norms in conjunction with other theories to interrogate the impact on student affairs staff across functional areas, institutional types, career stage, and identity groups. The book is divided into three sections; chapters in the first section of the book examine various facets of the structure of work in student affairs, including the impact of institutional type and different functional areas on employees' work-lives. Chapters in the second section examine the personal toll that working in student affairs can take, including emotional labor's impact on well-being. The final section of the book narrows the focus to explore how different identity groups, including mothers, fathers, and people of color, navigate work/life issues. Challenging ideal worker norms, all chapters offer implications for practice for both individuals and institutions.

Foundations of Career Counseling: A Case-Based Approach is designed for students taking courses in career counseling. Additionally, a full chapter is dedicated to the career development of students seeking graduate degrees in counseling. Suzanne Dugger's down-to-earth writing style clearly explains complex concepts in everyday language. Future counselors will develop a thorough understanding of both theory and technique pertaining to career development interventions with children and young adults as well as with adults--including specific populations such as persons with disabilities, military veterans, ex-offenders, homemakers and caretakers transitioning back into the world of work--and even themselves!
