*Teaching Statistics in School Mathematics-Challenges for Teaching and Teacher Education* results from the Joint ICMI/IASE Study *Teaching Statistics in School Mathematics: Challenges for Teaching and Teacher Education*. Oriented to analyse the teaching of statistics in school and to recommend improvements in the training of mathematics teachers to encourage success in preparing statistically literate students, the volume provides a picture of the current situation in both the teaching of school statistics and the pre-service education of mathematics teachers. A primary goal of *Teaching Statistics in School Mathematics-Challenges for Teaching and Teacher Education* is to describe the essential elements of statistics, teacher's professional knowledge and their learning experiences. Moreover, a research agenda that invites new research, while building from current knowledge, is developed. Recommendations about strategies and materials, available to train prospective teachers in university and in-service teachers who have not been adequately prepared, are also accessible to the reader.
